

How Do Birds Fly?

Sunday, January 29, 2017 - 2:00 p.m. to 3:00 p.m.

Bird Physiology Program
Rotary Centennial Nature Center
Honeymoon Island State Park

Program Description:

What is it that makes birds unique? Have you ever wondered how birds can fly, and why can't I? - It looks so free and effortless, but is it? Let's learn more as Honeymoon Island volunteer and bird enthusiast Lyn Rodger presents a program on the superb efficiency found among and under all those beautiful feathers. Enjoy learning about bird physiology in this classroom setting. Nature Center Volunteer Lyn Rodger will instruct, using an illustrated on screen presentation as well as props and demonstrations.

What: Classroom presentation

Ages: Adults and children, appropriate for ages 8 and up.

When: Sunday, January 29, 2017

Time: 2:00 p.m. to 3:00 p.m. (Park opens 8:00 a.m. Nature Center opens 9:00 a.m.)

Where: Rotary Centennial Nature Center at Honeymoon Island State Park - Meet in Classroom.

Address: 1 Causeway Blvd., Dunedin, FL 34698

Cost: Free with paid park admission. (\$4 per person, \$8 per vehicle, up to 8 people per carload.)

About the Presenter:

Since discovering birding in 2005, Lyn has enjoyed several week-long programs at the Maine Audubon Camp on Hog Island, Maine, as well as with Road Scholar from Campobello Island, Canada. She has also spent time at St. Simons Island, Georgia, and in Sarasota and Naples Florida. She has spent time in the field with birding experts Pete Dunn, Scott Weidensall, Bill Thompson III, Julie Zickefoose, Steve Kress, and many others.

She is a graduate of the University of New Hampshire Extension Division Marine Education program and the Honeymoon Island Volunteer Program.

She leads walks on the Isles of Shoals off the coast of New Hampshire in the summer and on the Honeymoon Island Osprey Trail in the winter.

Lyn is an amateur photographer, enjoys researching information about local flora and fauna, and delights in sharing what she has learned with others.
